Disclaimer of property.

"230A. (*1*) Where any part of the property of a company which is being wound up consists of land of any tenure burdened with onerous covenants, of shares or stock in companies, of unprofitable contracts or of any other property that is unsaleable, or not readily saleable, by reason of its binding the possessor thereof to the performance of any onerous act, or to the payment of any sum of money, the liquidator of the company, notwithstanding that he had endeavoured to sell or has taken possession of the property, or exercise any act of ownership in relation thereto, may, with the leave of the Court and subject to the provisions of this section, by writing signed by him, at any time within twelve months after the commencement of the winding up or such extended period as may be allowed by the Court, disclaim the property:

Provided that, where any such property has not come to the knowledge of the liquidator within one month

after the commencement of the winding up, the power under this section of disclaiming the property may be exercised at any time within twelve months after he has become aware thereof or such extended period as may be allowed by the Court.

(*2*) The disclaimer shall operate to determine, as from the date of disclaimer, the rights, interest and liabilities of the company, and the property of the company, in or in respect of the property disclaimed, but shall not, except so far as is necessary for the purpose of releasing the company and the property of the company from liability, affect the rights or liabilities of any other person.

(*3*) The Court, before or on granting leave to disclaim, may require such notices to be given to persons interested, and impose such terms as a condition of granting leave, and make such other order in the matter as the Court thinks just.

(*4*) The liquidator shall not be entitled to disclaim any property under this section in any case where an application in writing has been made to him by any persons interested in the property requiring him to decide whether he will or will not disclaim, and the liquidator has not, within a period of twenty-eight days after the receipt of the application or such further period as may be allowed by the Court, given notice to the applicant that he intends to apply to the Court for leave to disclaim, and in the case of a contract, if the liquidator, after such an application as aforesaid, does not within the said period or further period disclaim the contract, the company shall be deemed to have adopted it.

(*5*) The Court may, on the application of any person who is, as against the liquidator, entitled to the benefit or subject to the burden of a contract made with the company, make an order rescinding the contract on such terms as to payment by or to either party of damages for the non-performance of the contract, or otherwise as the Court thinks just, and any damages payable under the order to any such person may be proved by him as a debt in the winding up.

(*6*) The Court may, on an application by any person who either claims any interest in any disclaimed property or is under any liability not discharged by this Act in respect of any disclaimed property and on hearing any such persons as it thinks fit, make an order for the vesting of the property in or the delivery of the property to any persons entitled thereto, or to whom it may seem just that the property should be delivered by way of compensation for such liability as aforesaid, or a trustee for him, and on such terms as the Court thinks just, and on any such vesting order being made, the property comprised therein shall vest accordingly in the person therein named in that behalf without any conveyance or assignment for the purpose:

Provided that, where the property disclaimed is of a leasehold nature, the Court shall not make a vesting order in favour of any person claiming under the company whether as under-lessee or as mortgagee except upon the terms of making that person—

(*a*) subject to the same liabilities and obligations as those to which the company was subject under the lease in respect of the property at the commencement of the winding up; or

(*b*) if the Court thinks fit, subject only to the same liabilities and obligations as if the lease had been assigned to that person at that date;

and in either event (if the case so requires) as if the lease had comprised only the property comprised in the vesting order, and any mortgagee or under-lessee declining to accept a vesting order upon such terms shall be excluded from all interest in and security upon the property, and, if there is no person claiming under the company who is willing to accept an order upon such terms, the Court shall have power to vest the estate and interest of the company in the property in any person liable, either personally or in a representative character, and either alone or jointly with the company to perform the lessee's covenants in the lease, freed and discharged from all estates, incumbrances and interests created therein by the company.

(7) Any person injured by the operation of a disclaimer under this section shall be deemed to be a creditor of the company to the amount of the injury, and may accordingly prove the amount as a debt in the winding up."

Amendment of section 232, Act VII of 1913.

Amendment of section 235, Act VII of 1913.

109. In section 235 of the said Act,—

(*a*) in sub-section (*1*), after the words "or of any creditor or contributory" the words "made within three years from the date of the first appointment of a liquidator in the winding up or of the misapplication, retainer, misfeasance or breach of trust, as the case may be, whichever is longer," shall be inserted; and

(*b*) sub-section (*3*) shall be omitted.

Substitution of new section for section 237 in Act VII of 1913.

110. For section 237 of the said Act the following section shall be substituted, namely:—

Prosecution of delinquent directors.

"237. (*1*) If it appears to the Court in the course of a winding up by, or subject to the supervision of, the Court that any past or present director, manager or other officer, or any member, of the company has been guilty of any offence in relation to the company for which he is criminally liable, the Court may, either on the application of any person interested in the winding up or of its own motion, direct the liquidator either himself to prosecute the offender or to refer the matter to the registrar.

(*2*) If it appears to the liquidator in the course of a voluntary winding up that any past or present director, manager or other officer, or any member of the company has been guilty of any offence in relation to the company for which he is criminally liable, he shall forthwith report the matter to the registrar and shall furnish to him such information and give to him such access to and facilities for inspecting and taking copies of any documents, being information or documents in the possession or under the control of the liquidator relating to the matter in question, as he may require.

(*3*) Where any report is made under sub-section (*2*) to the registrar, he may, if he thinks fit, refer the matter to the Local Government for further inquiry, and the Local Government shall thereupon investigate the matter and may, if they think it expedient, apply to the Court for an order conferring on any person designated by the Local Government for the purpose with respect to the company concerned all such powers of investigating the affairs of the company as are provided by this Act in the case of a winding up by the Court.

(*4*) If on any report to the registrar under sub-section (*2*) it appears to him that the case is not one in which proceedings ought to be taken by him, he shall inform the liquidator accordingly, and thereupon, subject to the previous sanction of the Court, the liquidator may himself take proceedings against the offender.

(*5*) If it appears to the Court in the course of a voluntary winding up that any past or present director, manager or other officer, or any member, of the company has been guilty as aforesaid, and that no report with respect to the matter has been made by the liquidator to the registrar, the Court may, on the application of any person interested in the winding up or of its own motion, direct the liquidator to make such a report, and on a report being made accordingly, the provisions of this section shall have effect as though the report has been made in pursuance of the provisions of sub-section (*2*).

(*6*) If, where any matter is reported or referred to the registrar under this section, he considers that the case is one in which a prosecution ought to be instituted, he shall place the papers before the Advocate General or the public prosecutor and if advised to do so institute proceedings, and it shall be the duty of the liquidator and of every officer and agent of the company past and present (other than the defendant in the proceedings) to give him all assistance in connection with the prosecution which he is reasonably able to give:

Provided that no prosecution shall be undertaken without first giving the accused person an opportunity of making a statement in writing to the registrar and of being heard thereon.

For the purposes of this sub-section, the expression 'agent' in relation to a company shall be deemed to include any banker or legal adviser of the company and any person employed by the company as auditor, whether that person is or is not an officer of the company.

(*7*) If any person fails or neglects to give assistance in manner required by sub-section (*6*), the Court may, on the application of the registrar, direct that person to comply with the requirements of the said sub-section, and where any such application is made with respect to a liquidator, the Court may, unless it appears that the failure or neglect to comply was due to the liquidator not having in his hands sufficient assets of the company to enable him so to do, direct that the costs of the application shall be borne by the liquidator personally."

Resolution on the Annual Administration Report of the Department of Industries, Bengal, for the year 1935-36.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Industries.

Calcutta, the 11th December 1936.

RESOLUTION—No. 7612IND.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

Read—The Annual Administration Report of the Department of Industries, Bengal, for the year 1935-36.

Mr. A. T. Weston remained in the administrative charge of the department throughout the year. There was no change in the personnel of the superior staff except that, on the transfer of the Sericultural Section from the control of the Director of Agriculture to that of the Director of Industries, Mr. P. C. Chaudhuri, who was in charge of the section as the Deputy Director of Sericulture, reverted to the Agriculture Department; and Rai Sahib Surendra Nath Bose, Superintendent of Sericulture, officiated in that post until after the close of the year, when Mr. C. C. Ghosh, Entomological Expert to the Government of Burma, was appointed to it. On the abolition of one of the three posts of Superintendent of Sericulture as a measure of retrenchment, the silk districts were divided into two circles and placed in charge of two Superintendents.

2. In his report under review the Director of Industries has made an interesting retrospect of the working of the department for the last one and a half decade of administration under the reformed constitution which unfortunately synchronised with a regime of economic depression marked by low price levels and contraction of purchasing power. These conditions not only proved a great handicap to industrial development, but also imposed a severe strain on the financial resources of the province and, as a result, the activities of the Industries Department had necessarily to be curtailed. Under these circumstances the department had to devote its attention chiefly to the development of small and cottage industries. But, as the Director has rightly observed, substantial progress has been achieved by the department in spite of the limitations imposed on it. Within the last fifteen years a definite advance has been made towards placing technical and industrial education in Bengal on a sound and practical foundation and expanding the scope of such education in its higher branches. Noticeable among the institutions which provide for technical education in engineering subjects are the Calcutta Technical School and the Kanchrapara Technical School. The Bengal Tanning Institute has now developed not only into a training institution, but also into an important centre of research, demonstration and propaganda for the development of the tanning industry on modern scientific lines. The Government Weaving Institute at Serampore which is equipped with power weaving machinery provides for training in cotton textile technology and in the improved methods of handloom weaving; while the Government Silk Weaving and Dyeing Institute at Berhampore is designed to train students in the art of silk weaving, dyeing and printing on cottage lines. The need for specialised training in surveying is supplied by the Bengal Survey School at Comilla.

The importance to industrial research which is essential for the development of industries has not also been overlooked. In the Industrial Research Laboratory systematic research work is being carried on to meet the needs of industrialists; and it is gratifying to note that the results of researches have provoked interest outside the province and even abroad.

It has also been the policy of Government to encourage technical and industrial education by means of grants-in-aid to private institutions. Although provision for this purpose had to be curtailed owing to the financial stringency, substantial assistance was afforded by the department to technical, industrial

and weaving schools in the shape of recurring grants for maintenance and capital grants for building, furniture and equipment. Not less than seventy institutions received maintenance grants during the period under report

The State-aid to Industries Act, on the other hand, provided the machinery for encouraging the development of small and cottage industries by the grant of financial assistance. Loans exceeding Rs. 82,000 have so far been sanctioned of which a little over Rs. 32,000 has actually been paid. This is exclusive of the sum of Rs. 25,000 which represents the amount guaranteed by Government as cash credit In order to facilitate the quicker disposal of loan applications, powers have since the close of the year been delegated to the Board of Industries to sanction loans under the Act up to a maximum of Rs. 5,000 in each case.

3. While the Department of Industries has been unceasing in its efforts to develop the industrial life of the province within its limited resources by organising a system of training for turning out skilled labour and executives, by instituting special programmes of research and other measures to achieve that end, it has not been unmindful of the great importance of resuscitating the indigenous cottage industries specially those subsidiary to agriculture which provided spare time occupation for a large section of the rural population and thereby enabled them to supplement their income. The old established cottage industries with little or no organised resources required special attention and fostering care to survive the onslaught of the mechanised industries.

The handloom industry which is by far the largest and most important cottage industry in this province received considerable attention from the department. With the object of introducing up-to-date and economical methods of weaving with improved appliances for increasing the efficiency and earning capacity of the workers as well as for improving the quality and standard of the finished products, nine district weaving schools and twenty-five peripatetic weaving schools are maintained by Government; while there are ten private schools which receive Government aid. It is interesting to note that since the establishment of the above-mentioned Government institutions over 15,000 students received training in them, of whom not less than 11,000 have adopted weaving as their profession. The number of sleys and other improved weaving appliances introduced till the end of the year under review exceeds 13,000 The total number of centres served by Government Peripatetic Weaving Schools was 213. During the last fifteen years a total amount of Rs. 51,371 was given out in loans to passed students of the Government Weaving Schools for starting independent handloom businesses. Arrangements have also been made for textile demonstrations through the agency of four mobile weaving demonstration parties operating in local areas. There is also a dyeing demonstration party which has done useful work in the silk centres in the Birbhum and Bankura districts.

A great impetus has been given to the cotton handloom industry by the Government of India's subvention to assist its organisation on co-operative lines The work of organisation is being carried out by the Co-operative Department through the agency of selected co-operative industrial unions, while the Industries Department has been entrusted with the duty of technical research in that connection. This work is being done at the Serampore Weaving Institute through the agency of a small research staff employed for the purpose.

In pursuance of the scheme for rural uplift also financed by the Central Government, four demonstration parties have been established to demonstrate the possibilities of the coir industry as a profitable cottage industry. The demonstration parties working at different centres have not only offered practical lessons to quite a good number of students, but have also been successful in convincing the villagers about the economic possibilities of the industry. As a result of the training imparted by these parties a number of factories have been started in the localities where the parties had their centres and it is a happy augury that of the women trained by them thirteen have started factories of their own.

4. The tanning and leather industry also received attention in a large measure and the results achieved so far have been most encouraging. It is interesting to

note that Bengal secured a fair share of the export trade in chrome shoe upper leather, viz., box sides and box-calves, which received an impetus from the Ottawa Trade Agreement, and in its turn, gave a definite impetus to the chrome tanning industry. As a result of the pioneering work of the Bengal Tanning Institnte the chamois leather industry has obtained a footing in Calcutta. The boot and shoe-making department which is the only institution of its kind in Bengal affording facilities for training in the craft of shoe-making on up-to-date lines has gained in popularity; and it is gratifying that about 60 per cent. of the students trained in this institution are engaged in the trade which is evidence of the fact that leather work is no longer repugnant to the young men of the *bhadralok* class. The tanning and boot and shoe-making demonstration parties have also achieved a fair measure of success in inducing people in the mufassil to set up business.

5. The unemployment relief scheme has now been in operation for nearly four years and a review of the work done during this period has amply demonstrated that it has been successful in turning the minds of educated *bhadralok* young men towards industrial pursuits. It has contributed in an effective manner to the destruction of old fashioned prejudices against creative industries harboured so long by the educated classes. It is also a flattering testimony to the Bengal scheme that it has been particularly commended in the United Provinces Unemployment Committee's report.

In this connection mention may also be made of the scheme inaugurated during the year under report for the training of detenus in agricultural and industrial occupations under the supervision of Mr. S. C. Mitter, Deputy Director of Industries, which is, however, outside the scope of this review, being under the Political Department.

6. During the year under review the administration of the sericultural section was as stated above placed under the control of the Director of Industries. Owing to unprecedented drought which prevailed during the year the mulberry crop on which the silk yield is dependent greatly suffered. The silk market also did not show much improvement in spite of the tariff protection given to the industry. It is hoped, however, that the prospects of the revival of the cottage industry will improve in the near future with the protection afforded by the tariff on imported silk, the intensive programme for the resuscitation of the silk industry initiated with financial assistance from the Government of India and the policy of the department to devote more attention to the manufacturing side of the industry. With the introduction of the Government of India scheme for increased production of disease-free seed through the agency of selected rearers the number of such rearers rose from 207 to 356. An increased outturn of 5,871 *kahans* of disease-free seeds was obtained through 154 newly enlisted seed-growers. In 1935-36 the production and sale of controlled disease-free seed was 24,308 *kahans* against 18,437 *kahans* in the preceding year. Although the scheme was brought into operation during the second half of the year very encouraging results were obtained towards the distribution of layings, improvement and disinfection of rearing houses, etc.

7. Government (Ministry of Industries) note with pleasure the manner in which the work of the department has been conducted by Mr. Weston and his staff. Government are also grateful to the members of the Board of Industries and other Boards and Committees attached to the department for the assistance rendered by them.

Remarks.

The Chief Estimating Officer has reported that the above estimates of pre-canal yield per acre cover only the yield from land actually transplanted each year and do not take into account the fact that in years of deficient rainfall varying proportions of the land are not transplanted at all; the estimates therefore underestimate the extent of the increase in outturn made possible by the Damodar Canal. The Chief Estimating Officer considers that sufficiently definite data have not yet been collected for working out the degree to which the outturn from the land available for cultivation would fall short of the outturn from the land actually cultivated, and in view of this opinion and of the fact that the rate at which improvement levy in the Damodar Canal area can be realised would not be affected if the estimated difference in yield per acre were increased on this account, the Governor in Council accepts the estimates without modification.

No. 28-I.—23rd December 1936.—In exercise of the power conferred by sub-section (*1*) of section 10 of the Bengal Development Act, 1935 (Bengal Act XVI of 1935), the Governor in Council is pleased to declare rupees five and annas eight per acre to be the rate at which the improvement levy shall be imposed in respect of all classes of agricultural land in the Damodar Canal area, as defined in rule 2(7) of the Bengal Development Rules, 1936, for the period from 1st July 1936 to 31st October 1936.

New Delhi, the 10th December 1936.

No. F.-69/36-Public.—His Excellency the Governor-General in Council directs the publication of the following documents which have been transmitted to him by Command of His Majesty the King Emperor:—

I

INSTRUMENT OF ABDICATION OF HIS MAJESTY KING EDWARD THE VIII, KING OF GREAT BRITAIN, IRELAND AND THE BRITISH DOMINIONS BEYOND THE SEAS, EMPEROR OF INDIA.

I, Edward the VIII, of Great Britain, Ireland, and the British Dominions beyond the Seas, King Emperor of India, do hereby declare my irrevocable determination to renounce the Throne for myself and for my descendants, and my desire that effect should be given to this Instrument of Abdication immediately.

In token whereof I have hereunto set my hand this Tenth Day of December, Nineteen hundred and thirty-six, in the presence of the witnesses whose signatures are subscribed.

EDWARD R. I.

Signed at Fort Belvedere in the Presence of

ALBERT.
HENRY.
GEORGE.

II

MESSAGE FROM HIS MAJESTY EDWARD VIII, OF GREAT BRITAIN, IRELAND, AND THE BRITISH DOMINIONS BEYOND THE SEAS, KING EMPEROR OF INDIA.

Fort Belvedere, Sunningdale, Berkshire.

After long and anxious consideration I have determined to renounce the Throne to which I succeeded on the death of my Father, and I am now communicating this, my final and irrevocable decision. Realising as I do the gravity of this step, I can only hope that I shall have the understanding of my peoples in the decision I have taken and the reasons which have led me to take it. I will not enter now into my private feelings but I would beg that it should be remembered that the burden which constantly rests upon the shoulders of a sovereign is so heavy that it can only be borne in circumstances different from those in which I now find myself. I conceive that I am not overlooking the duty that rests on me to place in the forefront the public interest when I declare that I am conscious that I can no longer discharge this heavy task with efficiency or with satisfaction to myself.

I have accordingly this morning executed an Instrument of Abdication in the terms following:—

"I, Edward VIII, of Great Britain, Ireland and the British Dominions beyond the Seas, King, Emperor of India, do hereby declare my irrevocable determination to renounce the Throne for myself and for my descendants, and my desire that effect should be given to this Instrument of Abdication immediately.

In token whereof I have hereunto set my hand this Tenth Day of December, Nineteen hundred and thirty-six, in the presence of the witnesses whose signatures are subscribed.

(Signed) EDWARD R. I."

My execution of this Instrument has been witnessed by my three brothers, Their Royal Highnesses the Duke of York, the Duke of Gloucester, and the Duke of Kent.

I deeply appreciate the spirit which has actuated the appeals which have been made to me to take a different decision, and I have, before reaching my final determination, most fully pondered over them. But my mind is made up. Moreover, further delay cannot

but be most injurious to the peoples whom I have tried to serve as Prince of Wales and as King and whose future happiness and prosperity are the constant wish of my heart.

I take my leave of them in the confident hope that the course which I have thought it right to follow is that which is best for the stability of the Throne and Empire and the happiness of my peoples. I am deeply sensible of the consideration which they have always extended to me, both before and after my accession to the Throne, and which I know they will extend in full measure to my successor.

I am most anxious that there should be no delay of any kind in giving effect to the Instrument which I have executed, and that all necessary steps should be taken immediately to secure that my lawful successor, my brother, His Royal Highness the Duke of York, should ascend the Throne.

EDWARD R. I.

The University authorities are awaiting the orders of the Government of Bengal on the subject and a further communication will be sent to recognised schools as soon as possible.

J. CHAKRAVORTI, *Registrar.*

Calcutta University.

Senate House, the 18th December 1936.

CIRCULAR No. S/296/N.M., Senate House, the 18th December 1936.

From—J. Chakravorti, Esq., M.A., Registrar, Calcutta University,

To—The Heads of Recognised Schools in Bengal and Assam.

The undersigned has the honour, by direction of the Vice-Chancellor and Syndicate, to invite the attention of the authorities of all recognised High Schools in Bengal and Assam to the revised regulations for the Matriculation Examination which were published for general information in the *Calcutta Gazette* on 1st August 1935. With the concurrence of the Government of Bengal which has just been received, the University has decided to give effect to these regulations with effect from the Matriculation Examination to be held in 1940 subject to the conditions mentioned in this notification and any other conditions that may hereafter be notified.

Subjects for the Matriculation Examination.

The subjects for the Matriculation Examination under the revised regulations are as follows:—

1. A Major Vernacular Language, *viz.*, Bengali, Urdu, Assamese or Hindi.
2. English.
3. Geography.
4. History of India and History of England.
5. Mathematics.
6. A Classical Language or another Language, as provided.
7. Elementary Scientific Knowledge.

Elementary Scientific Knowledge will not be a compulsory subject until the examination to be held in 1943.

8. *If candidates so desire*, they may take up an additional subject from the list appearing under Section 8, Chapter XXX of the Regulations.

There are special provisions with regard to candidates whose Vernacular is a language other than Bengali, Urdu, Assamese or Hindi and also for girl candidates.

For details reference may be made to Sections 8 and 9 of Chapter XXX.

Vernacular Medium.

The main feature of the new Regulations is that instruction and examination in all subjects other than English will be through the medium of one of the Major Vernaculars.

Exemption.

Attention of the schools is invited in this connection to Section 7, Chapter XXX of the Regulations which gives power to the Syndicate to make exception to the rule relating to the medium or postpone its operation either in whole or in part for a prescribed period of time. *Schools which desire such exemption are advised to apply to the Registrar stating reasons and the period of exemption asked for on or before 1st February 1937.*

Mathematics.

The Vice-Chancellor and Syndicate have decided that the medium of instruction and examination in Mathematics in all cases for the examination to be held in 1940 will be English. This is necessary in view of the fact that boys who will be in Class VIII in 1937 will have already read Mathematics through the medium of English in Class VII. It is expected that schools, unless they obtain exemption under the foregoing paragraph, will be in a position to teach Mathematics through the medium of Bengali from Class VII in 1937. Text-books in Arithmetic, Algebra and Geometry in Bengali have been approved by the Syndicate and will be found in Appendix "A" which also includes books written in English. Exemption regarding Mathematics for 1941 may be asked for by, and will be granted to, schools imparting instruction in other subjects through Vernaculars other than Bengali. This is necessary as suitable text-books in all branches of Mathematics in these languages are not yet available. These schools may consider as an alternative, the desirability of continuing English as the medium during the period of transition.

History and Geography.

History (including History of England) and Geography are at present taught as compulsory subjects up to Class VIII. These will be compulsory for the Matriculation Examination under the New Regulations. Text-books in these subjects for the Matriculation Examination in 1940 will be prescribed by the middle of 1937. These books will be used in schools in Class IX from the commencement of the session 1938.

A list of appliances required for teaching Geography up to the Matriculation Standard will be found in Appendix "B." Schools are requested to take steps to comply with these requirements in the course of 1937. No special application for recognition will be necessary for this purpose at this stage but Inspectors will satisfy themselves that the schools comply with such requirements. It will of course be in the interest of schools themselves to see that this is satisfactorily done since this subject will be a compulsory subject from the examination to be held in 1940.

Applications for exemption.

The directions given above are expected to cover the requirements of the new regulations for the compulsory subjects for the Matriculation Examination to be held in 1940. The Vice-Chancellor and Syndicate trust that the schools will find it possible to co-operate with the University in bringing the New Regulations into force as indicated above. They will be prepared to consider all reasonable applications for exemption during the period of transition and meet the difficulties of schools in so far as it is possible for them to do. It is requested that such applications should be addressed to the Registrar with as little delay as possible.

Elementary Scientific Knowledge.

As regards the Scientific subjects the Vice-Chancellor and Syndicate recognise that it will require some time before the schools may be ready to provide for teaching in such subjects. As has been stated above, Elementary Scientific Knowledge will not be a compulsory subject until the examination to be held in 1943. Schools which desire to obtain recognition in "Elementary Scientific Knowledge" for examinations to be held in 1940-42 are requested to apply to the Registrar by 30th April 1937. They can obtain special forms of application for this purpose from the undersigned. As this subject will be compulsory from the examination to be held in 1943 it is necessary that compulsory teaching in this subject should commence ordinarily from Class VII from 1939. For this purpose applications for recognition should be made to the Registrar by 30th September 1937. The University and the Department of Public Instruction are jointly considering the question of making arrangements for training teachers in scientific and other subjects.

Other Scientific subjects.

Schools which are already recognised under the existing regulations in Mechanics, Hygiene and Commercial Geography, may continue to teach these subjects according to the provisions of the New Regulations.

With regard to the other scientific subjects, *viz.*, Elements of Physics and Chemistry, Mensuration and Surveying and the Elements of Biology, schools will have to obtain special recognition if and when they want to teach these subjects. Requirements for these subjects will be supplied on application.

Special recognition will also have to be obtained in Music and Drawing and Painting.

No special recognition will be necessary for teaching Additional Mathematics, Business Method and Correspondence, Elements of Public Administration in India, and Sewing and Needlework.

Vocational subjects.

Attention of the schools is invited to provisions in Section 2(A), Chapter XXI of the Regulations relating to training in one or more of the vocational and other special subjects enumerated therein. The Vice-Chancellor and Syndicate will be glad to know which particular subject or subjects a school is prepared to take up and what arrangement it proposes to make in this connection and from which year.

Physical Training.

Attention is also invited to Section 2 (*m*), Chapter XXI of the Regulations regarding compulsory physical training in all High Schools. The Vice-Chancellor and Syndicate will be glad to know the existing provision for such training in the schools for this purpose and also the arrangements propsoed to be made for giving full effect to this regulation.

A copy of the New Regulations will be forwarded to each school by the first week of January 1937.

Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The Committee passed resolutions at their meetings expressing deep regrets.

Principal events.—To celebrate Their Imperial Majesties' Silver Jubilee the Garden was open free to the public on 6th May. Large numbers of holiday makers had come to Calcutta to witness the celebrations and over 12,000 found time to visit the Garden.

On receipt of the sad news of the death of His Late Most Gracious Majesty King George V, Emperor of India, the Garden, as a mark of respect, was closed on the 21st January 1936. It also remained closed on Tuesday, the 28th January 1936, which was the date of His Late Majesty's funeral.

A resolution expressing sorrow at the death of His Late Majesty and respectful condolence with the Royal Family was passed at the Committee meeting held on the 8th February 1936, all those present standing.

Their Excellencies the Viceroy and the Countess of Willingdon visited the Garden on 7th December 1936. Their Excellencies showed great interest in a number of the exhibits, especially the pair of Himalayan bear cubs ("Bubble" and "Squeak"), a group of tiger cubs and the pair of one-horned Indian rhinoceros which had been received

as presents by Their Excellencies and handed on by them to the Garden.

The general health of the animals during the year was very good, and there was no epidemic. The larger carnivores thrived extremely well and there were no important casualties amongst them. The ruminants maintained excellent health as is shown by their birth rate. For the first time in this Garden a Hoolock Gibbon was born in the Island Enclosure. The birds were in splendid condition and the Himalayan birds stood the heat remarkably well. No important casualties occurred amongst the rare varieties of birds, with the exception of the pink-headed duck which was killed by vermin; a serious loss as it was the only specimen which the Garden possessed.

(*i*) The following new construction was undertaken during the year:—

(1) A new underground drain with 6 inches stoneware pipe was made from the Rhinoceros Enclosure right up to the ornamental lake to discharge the foul water and excess of rain water.

(2) A new six-seat service latrine was built in the Begunbari land for the use of the Garden servants.

(3) New fencing was erected along the Tolly's Nullah on the northern and eastern sides of the Begunbari land.

(4) The old camel shed was dismantled and replaced by a new shed with a steel frame.

(5) The existing elephant shed which had accommodation only for one elephant was extended so as to accommodate the second female baby elephant acquired from Jalpaiguri.

(6) The old shed in the Red Deer Enclosure was removed and a new shed was constructed.

(7) The old shed of the Barking Deer Enclosure was removed and a new shed with three partitions was constructed.

(*ii*) The following improvements were made:—

(1) *Burdwan House.*—This house was completely overhauled and one of the grated partitions was replaced by a reinforced concrete wall. The existing surface drain was remodelled. The old wooden stairs were removed and an iron ladder with railings provided.

(2) All the three sheds in the new extension were provided with ventilators and remodelled.

(3) *Kidderpore (Back) Gate.*—The height of the gate was raised, and it was repaired and painted thoroughly.

(4) *Entrance Lodge and Office.*—Almost all the old wooden pillars in the verandah were renewed. Other woodwork was also renewed and the ceiling, etc., was thoroughly scraped and painted.

(5) *Drill and Mandrill House* was thoroughly repaired; beams, rafters, etc., were painted white.

(6) *Kangaroo House.*—A dwarf wall along the bottom of the fencing was constructed. All the woodwork, iron posts and doors, etc., were painted buff and green.

(7) *Ezra House* was thoroughly repaired and remodelled with partition walls and interlinked wire-netting so as to accommodate 4 different sets of animals.

(*iii*) The following repairs and renewals have been carried out:—

(1) *Dumraon House.*—This house was thoroughly overhauled—the iron bars and gratings in the inner and outer cages were renewed and the whole house inside and outside was colour-washed and painted.

(2) *Gubbay House.*—The whole house was thoroughly repaired, the floor renewed with a concrete bed and the rat holes closed. All the doors and windows, fan-lights, etc., were repaired and painted.

(3) *Murshidabad House.*—The outside wall was cement pointed and the wood and ironwork repaired. Beams, sashes, rafters and the main door, etc., were painted and repaired.

(4) *Sarnomoyi House.*—Thorough repairs were done. The woodwork of the cages and inner netted doors, etc., were painted white.

(5) Petty repairs were also done to the following:—

Pig Enclosure, Rhinoceros Enclosure, Elephant Stand, Mullick House, Committee Room, Reptile House, Tapir Enclosure, Rodent House, Jhind House, Schwendler House, Refreshment Pavilion and Kitchen, Gayal Enclosure, etc.

The financial position of the Gardens may be considered satisfactory. Entrance receipts show a drop as compared with last year of Rs. 7,577-5 but this is partly accounted for by the fact that last year a very large number of villagers visited the Gardens during the Ardhyodaya Yoga festival which was held in February after an interval of 27 years. Also, this year the charges of one rupee and four annas for Sunday visitors were discontinued.

The following is a comparative statement of visitors and receipts for the last four years:—

	Visitors.	Receipts.	
		Rs.	a.
1932-33	930,004	62,231	6
1933-34	911,621	59,812	4
1934-35	1,011,616	65,055	0
1935-36	919,172	57,477	11

The Corporation of Calcutta sanctioned a grant of Rs. 26,233-6 to the Garden for the year under report and the amount of the rate bills in respect of the Garden was adjusted against this grant as the rate bills fell due. The Committee desire to express their thanks to the Corporation of Calcutta for their generous contribution. As regards the amount of Rs. 4,328-8, being the unadjusted balance on account of rates and taxes for the year 1934-35, when the Corporation reduced their grant by 16½ per cent., the Committee have made a representation to the Corporation to restore their grant in full for the above year and in view of the fall in the entrance receipts, etc., it is earnestly hoped that the Corporation will accede to this request.

A large number of children under four years of age and school children attended by their teachers, were admitted free. In addition

60,777 persons visited the Garden on free days. A detailed statement of the number of visitors and receipts appears in Appendix B.

The Annual Fancy Fair was held as usual on the 31st December 1935 and 1st January 1936. The turnstiles recorded 19,740 one-anna visitors as against 20,182 visitors on both days in the previous year.

The thanks of the Committee are due to those ladies and gentlemen who have made gifts to the Zoological collection. A list is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species was already sufficiently well represented or owing to want of accommodation.

The Committee also desire to express their thanks to the following Railways and Steamer Companies for kindly conveying the animals belonging to the Garden free of charge:—

East Indian Railway, British India Steam Navigation Company, Limited, and Rivers Steam Navigation Company, Limited.

The Flower Garden was well maintained, and there was a particularly good show of annuals. The Garden was awarded several prizes for a number of exhibits sent to the Agri-Horticultural Society's annual exhibition.

Thanks are due to the Commanding Officer and Officers of the 2nd Battalion, 7th Rajput Regiment, stationed at Alipore, for permitting their regimental band to play at the Garden on Tuesday afternoons, free of charge, from 12th January 1936 to 19th February 1936.

The Committee is also much indebted to those members of the public who sent old or broken down horses to the Zoological Gardens, where they were destroyed under the most humane conditions.

President.

G. R. DODS,
Honorary Secretary.

The Garden sustained a loss from the depredation of vermin amongst the stock, particularly of aquatic birds, which were kept in different places and water enclosures. The most serious loss amongst the 53 birds was the last remaining Pink-headed Duck which was much regretted. A couple of wild Mungoose and Civet cats as well as a large number of water rats, House rats and Field rats were killed by means of systematic raids throughout the Gardens.

As the common crows and kites were a source of trouble to the inmates of the Garden, two cooly boys were engaged from time to time to drive them away when food was being given, particularly to the birds and animals in the Hoolock Island, New Extension, Rhino enclosure, Big Lake and Ornamental lake. Two new-born cygnets were taken away by a kite from the south bank of the Ornamental Lake opposite the Ezra House and a baby Hoolock was also killed by a kite. Two Crow-traps were set up at different places in the Garden with effective results; it has been found, however, that although approximately 3,000 crows and 24 kites were trapped and killed during the year, their number in the Garden never appeard to be any less.

Thanks are due to the Principal, Bengal Veterinary College, Belgachia, Calcutta, and to the Veterinary Advisor to the Government of Bengal for their kind help in several cases.

No. 7489Zoo, dated Calcutta, the 8th December 1936.

From—H. S. E. Stevens, Esq., I.C.S., Secretary to the Government of Bengal, Department of Agriculture and Industries,

To—The Honorary Secretary, Zoological Garden, Calcutta.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Farooqui, Kt., of Ratanpur.

I am directed to acknowledge receipt of the Report of the Honorary Committee for the Management of the Zoological Garden, Calcutta, for the year 1935-36, forwarded with your letter No. 266, dated the 30th November 1936, and to congratulate the Committee and particularly those members who have given personal services in the supervision of the garden on the success of their efforts to make it attractive to the public and to win their support.

The thanks of Government are due to the Corporation of Calcutta for their contribution to the funds of the garden and more particularly for the withdrawal of the percentage cut imposed in 1934-35, and it is hoped that they will likewise restore the grant reduced previously. Thanks are also due to the ladies and gentlemen referred to in the report who have made donations or presented animals to the garden.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th December 1936.

Final Forecast of the Bhadoi Crops of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under autumn rice in Bengal has represented some 6·6 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the preliminary forecast sowings were generally carried out under favourable circumstances. Since then conditions were more or less helpful for growth and development. Excessive rainfall and floods, however, caused damage in Dacca and in some districts of West and North Bengal. On the whole, the season was fairly satisfactory for the crops.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,494,100 acres as against 6,567,100 acres last year. Of this, the area under autumn rice is estimated at 5,756,600 acres as against 5,851,300 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 82 per cent. of the normal this year as against 76 per cent. last year. The autumn rice is estimated to yield an outturn of 81 per cent. of the normal for the province this year as against 75 per cent. last year.

On the basis of a normal yield of 12½ maunds of clean rice per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 2,141,100 tons this year as against 2,015,100 tons last year.

K. McLEAN,

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 14th December 1936.

Second Forecast of the Winter Rice Crop of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under winter rice in Bengal has represented some 17·8 per cent. of the total area under rice in India.)

Character of the season.—In the first forecast the weather was reviewed up to the month of September as having been favourable both for broadcast and transplanted winter paddy. Seasonable showers in October materially helped the final development and flowering of transplanted winter paddy and a good outturn is expected in consequence except in the districts of Nadia, Jessore, Rajshahi, Malda and Faridpur, where the lowland crop has been affected by flood.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 15,603,300 acres as compared with 14,836,500 and 14,836,900 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that four districts report a bumper crop, eight districts a normal crop, nine districts a crop varying from 90 to 95 per cent. and the remaining six districts only below 90 per cent. of the normal. According to the above estimates the provincial outturn works out to 99 per cent. of the normal as against 73 and 68 per cent. in the corresponding and final forecasts of last year. Considering the uniformly satisfactory weather conditions this year the outturn, in my opinion, will not fall short of a normal crop of 100 per cent. for the province, as a whole.

Accepting 100 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 13½ maunds of clean rice per acre, is estimated at 7,738,000 tons this year as against 5,371,100 and 5,003,400 tons, respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 12th December 1936.

First Forecast of the Spring Oilseed Crops of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under linseed in Bengal has represented some 3·6 per cent. and that under rape and mustard 11·6 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present deals with the area sown and the condition of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two Divisions, the area under cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 875,200 acres this year as against 843,900 and 850,400 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—The weather in September and in the first part of October was too wet for the preparatory tillage of the crops. Since then conditions were favourable for field operations and for early growth. The present outlook is generally reported to be promising.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 9th December 1936.

Third Forecast of the Cotton Crops of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—After the issue of the second forecast in October last, the weather continued generally favourable for early crop. The outlook of late variety is fair, except in parts of Bankura, where heavy rain has somewhat affected the crop. On the whole, a higher yield is expected.

Area sown.—The total area sown with early cotton is returned at 74,022 acres and that with late at 755 acres as against 72,793 and 500 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 25,470 bales and the late crop at 197 bales as against 23,501 and 46 bales, respectively, in the corresponding forecast of last year.

Resolution on the seventy-fourth annual report of the Government Cinchona Plantations and Factory in Bengal, for the year 1935-36.

GOVERNMENT OF BENGAL.

Revenue Department.

Cinchona.

Calcutta, the 11th December 1936.

RESOLUTION—No. 17081 Cin.

Read—

The seventy-fourth annual report of the Government Cinchona Plantations and Factory in Bengal for the year 1935-36.

Read also—

The report of the previous three years.

Mr. C. C. Calder held charge of the office of the Superintendent for six months of the year, being on leave out of India from the 31st May 1935 to 30th November 1935 and during the period of his absence Mr. S. C. Sen, Quinologist to the Government of Bengal, held charge as Officiating Superintendent in addition to his own duties.

2. The stock of crude quinine sulphate on the 31st March 1936 stood at 149,124 lbs. Of the accumulated stock of bark, 200,000 lbs. were sold to the Government of Madras and 4,010 lbs. to others during the year. The closing balance of the stock of cinchona bark at the end of the year was 846,939 lbs. against 1,009,875 lbs. at the end of the previous year. The total quality of cinchona products manufactured during the year was 74,411 lbs. and the total quantity sold was 50,695 lbs. Sales of manufactured products were, therefore, less than production by 23,716 lbs.

3. The total area under cinchona at the end of the year was 2,664 acres. Extensions amounting to 356·59 acres were carried out during the year including the replanting of old coppiced blocks. No virgin ground is available at Munsong and extensions at Mungpoo now provide the main avenue of development of plantations until fresh areas are available, for which reconnaisance is being made.

4. At Mungpoo, the rainfall was below the average and little damage was done by landslip. Hailstorms were experienced in certain divisions in the earlier part of the year causing some damage to younger plants, but the damage was not excessive. At Munsong, though the rainfall was below normal, the general deficiency was somewhat counterbalanced by a fall towards the latter part of the year and on the whole the dry season was a normal one. Considerable damage was however caused to a portion of the plantation by a hailstorm towards the end of the year. In spite of the efforts of the special investigators the nursery disease at Munsong plantation mentioned in the previous years' reports still awaits identification and in the absence of this, such practical methods as are known to be in some measure effective were employed to prevent it from spreading.

5. The quantity of the Bengal bark harvested in the year was 1,329,302 lbs. as against 1,095,369 lbs. in the previous year.

6. Altogether 1,361,941 lbs. of dried bark were treated in the factory during the year, of this 1,288,863 lbs. were Bengal bark and the rest belonged to the Government of India.

7. The total quantity of quinine sulphate manufactured during the year was 51,026 lbs., of which 2,635 lbs. belonged to the Government of India. The cost of quinine in the bark was Rs. 5·033 per lb. and that of manufacture from bark amounted to Rs. 1·515 per lb., thus bringing the total cost of quinine to Rs. 6·548 per lb. The total quantity of cinchona febrifuge manufactured during the year was 23,885 lbs., of which 1,868 lbs. represented the share of the Government of India.

8. The gross receipts were Rs. 10,74,094 and after deducting Rs. 35,868 due to the Jail Department, for distribution work and Rs. 8,785 on on account of sales outstanding, the net receipts amounted to Rs. 10,29,441. The total expenditure of the department including pensionary charges was Rs. 4,44,336. Both receipts and expenditure were higher by Rs. 1,99,912

and Rs 16,866 respectively than in the preceding year. The profit on the year's working, according to the profit and valuation acount, amounted to Rs 5,16,613 as against Rs. 4,25,213 in 1934-35. The increase is due to increase in the trading account. In 1935-36, receipts from sales increased by nearly Rs. 2 lakhs, in comparison with the previous year. The net receipts (excess of actual money receipts over actual money expenditure) rose by Rs 1,83,046 —a very satisfactory result in view of the fact that the amount of cinchona products sold was similar to that of the preceding year.

9 The accumulated stock of quinine sulphate decreased at the end of the year by 3,154 lbs.—a decrease of about 2 per cent as against an increase of over 15 per cent. at the end of the previous year. This is due to larger sales of quinine sulphate during the year under review. The stock of cinchona febrifuge powder rose at the end of the year from 609 lbs to 1,897 lbs. The stock of bark went down by 162,936 lbs or over 16 per cent. The fall is mainly attributable to sale of 200,000 lbs. to the Madras Government. On the whole the value of stocks held (including quinine in the bark) went down at the end of the year by approximately 50 thousand rupees as against a rise of 1½ lakhs of rupees at the end of the previous year.

In view of the continued accumulation of quinine sulphate and the shortage of cinchona febrifuge, the sale of the former was opened and that of the latter closed to the general public in January 1935. This diminished the stock of former and increased that of the latter to a certain extent by the end of the year under report.

10. Examination of the block account (Appendix E) indicates that the valuation of Mungpoo plantation rose at the end of the year by Rs. 69,204 while there was a considerable loss on the valuation of Munsong plantation as in the previous two years. This is due to nursery disease at Munsong and to the fact that except in Mungpoo no virgin land is available for planting.

11. Government are satisfied from the report that the Bengal Cinchona Department was efficiently managed during the year under review. The thanks of the Government are due to Mr. Calder, the Superintendent, Cinchona Cultivation, and to Mr. S. C. Sen, the Quinologist, who was also Officiating Superintendent for a part of the year and to other officers of the department for the good work done by them.

Order.—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 14th September, 1936:—

L. A. Bill No. 37 of 1936.

A Bill to amend the Indian Rubber Control Act, 1934, for certain purposes.

Whereas it is expedient to amend the Indian Rubber Control Act, 1934, for the purposes hereinafter appearing; It is hereby enacted as follows:— XXVIII of 1934.

Short title.

1. This Act may be called the Indian Rubber Control (Amendment) Act, 1936.

Amendment of section 2, Act XXVIII of 1934.

2. In section 2 of the Indian Rubber Control Act, 1934 (hereinafter referred to as the said Act), XXVIII of 1934.—

(*a*) in clause (*c*), the words "from rubber produced in India" shall be omitted;

(*b*) in clause (*d*), for the words "excluding imported rubber re-exported in manufactured articles containing rubber" the words "excluding rubber contained in imported manufactured articles re-exported" shall be substituted and for the words "excluding rubber in manufactured articles containing rubber" the words "excluding rubber contained in imported manufactured articles whether or not re-exported" shall be substituted; and

(*c*) in clause (*h*), for the words "except where the word is used in Chapter IV rubber produced in India contained in any article manufactured in India" the words "rubber contained in any manufactured article" shall be substituted.

Amendment of section 12, Act XXVIII of 1934.

3. In sub-section (*1*) and sub-section (*2*) of section 12 of the said Act, for the words "the growth or produce of" the words "grown, produced or contained in an article manufactured in" shall be substituted.

Substitution of new section for section 13, Act XXVIII of 1934.

4. For section 13 of the said Act the following section shall be substituted, namely:—

Export allotments.

"13. A general export allotment, that is, the permissible maximum net exports of rubber from British India excluding Burma for any specified period expressed in terms of dry rubber, and a Burma export allotment, that is, the permissible maximum net exports of rubber from Burma for the same period similarly expressed, shall be declared from time to time by the Governor General in Council by notification in the Gazette of India."

STATEMENT OF OBJECTS AND REASONS.

The Indian Rubber Control Act which implements the obligations contracted by the Government of India under the Inter-Governmental Agreement relating to the restriction of the export, production and stocks of rubber, was passed in 1934 but its enforcement was held up pending the preparation of the rules and bye-laws to be issued under it. Certain amendments have also subsequently been found to be necessary in order to bring the Act into conformity with the Inter-Governmental Agreement.

The Act provides for the declaration by the Governor General in Council of export allotments for India and Burma respectively for a whole year whereas the practice of the International Rubber Regulation Committee which administers the rubber restriction scheme has been to fix the export allotments for the various contracting parties for six months or even three months. It is now proposed to amend the Act so as to bring its provisions in this respect into conformity with the practice of the International Rubber Regulation Committee.

Amendments are also required to certain definitions in section 2 of the Act so as to bring them into accord with the provisions of the Inter-Governmental Agreement.

2. The present Bill is designed to give effect to the above objects and after it has been passed it is proposed to bring the Indian Rubber Control Act into force with effect from the 1st January, 1937.

SUPPLEMENT.

Official Papers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 18th December 1936.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1936-37.

(*Note*—On an average of the five years ending 1934-35, the area under *til* in Bengal has represented some 2·4 per cent. of the total area under *til* in British India).

Character of the season.—At the outset wet weather interfered with the progress of sowings in some districts. From the middle of October dry weather facilitated further sowings and helped growth generally. On the whole, a satisfactory crop is expected.

Acreage.—The total area sown with the crop this year is estimated at 52,000 acres as against 50,700 acres last year.

Outturn.—According to the District Officers' estimate the outturn of the crop for the province, as a whole, works out at 86 per cent. of the normal as against 77 per cent. last year.

Taking 7 2/5ths maunds as a normal rate of yield per acre, the gross outturn for the province is estimated at 12,200 tons this year as against 10,600 tons last year.

Director of Agriculture, Bengal.
